LEADERS IN HOARDING SOLUTIONS

1300Hoarding are specialists in the design and installation of robust, secure Engineer Certified Hoarding Systems.

We engage in commercial construction, civil infrastructure, retail and events projects ranging from modest fit-outs to multi-million dollar ventures. Our skilled and experienced Hoarding management and construction teams work collaboratively with our clients and stakeholders to provide hoarding solutions tailored to your needs.

Safety, and the compliance of your hoarding is at the forefront of everything we do. All of our temporary hoarding systems are certified and compliant to Australian Standards.

EXTERNAL HOARDING (A CLASS HOARDING)

1300Hoarding are committed to providing unrivalled quality in construction and event site hoardings in Melbourne, Sydney, Brisbane, Adelaide and Canberra. Our Engineer Certified Hoarding Systems are built safe and compliant to relevant Australian Standards, and local and state regulations.

Our experienced management and construction teams can provide excellent knowledge and advice on the best hoarding solutions to suit your site. Utilising our standard engineer certified systems to 2.4 metres in height, or if your site demands greater hoarding heights or more complex requirements we have strong relationships with experienced structural engineers who can provide Site Specific Designs and Regulatory Sign-offs within critical timeframes.

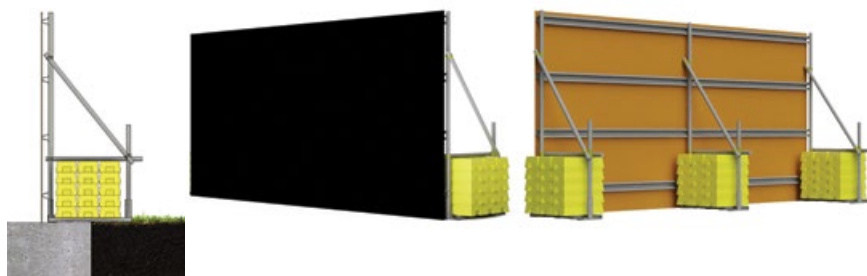

1300Hoarding OH&S and Environmental systems are fully compliant and proven successful on major infrastructure and commercial construction projects. We also offer a range of accessories to make your construction or event site hoarding safer and more effective.

All of our Timber Hoarding is tested and certified to Australian Standard AS1170.2:2021 Temporary Fencing & Hoarding. Our above ground ground/Counterweight is compliant to AS4687 2022 Part 1 and 3.

1300Hoarding provides 4 types of External Hoarding Systems that are Proprietary Engineered and Certified Hoarding Systems.

EXTERNAL HOARDING RANGE:

COUNTERWEIGHTED ABOVE GROUND HOARDING

Suitable for all ground types, no ground damage.

IN GROUND HOARDING

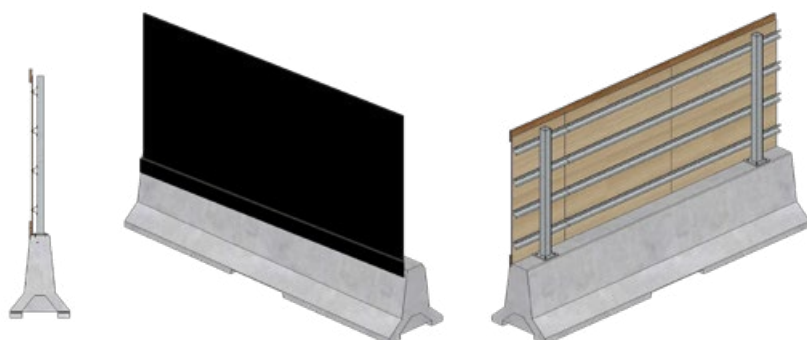

Suitable for soft ground surfaces, ground holes will be dug.

DYNA BOLTED HOARDING

Suitable for concrete slab surfaces.

JERSEY KERB HOARDING

Protection of the site from vehicle impact without taking up additional space for the hoarding.

INTERNAL / RETAIL HOARDING

1300Hoarding is a proud supplier of the Engineer Certified Titan Hoarding System, the market leader for indoor hoarding applications where public access must be restricted during construction or event activities. Ideal for retail shopping centres, commercial offices, and hospitals, Titan can be built up to 7.2 metres high completely free standing, eliminating the damage to floors and bulkheads from traditional indoor hoarding methods of screwing and taping.

1300Hoarding internal/retail hoardings create a seamless barrier from noise and dust, ensuring your construction activities can continue unabated on the inside of the hoarding, without impacting the public on the outside.

Our superior admin, workflow and audit systems ensure our install crews are available day and night to provide safe, unmatched reliability for indoor hoardings to:

- Retail Shopping Centres
- Commercial offices and buildings
- Hospitals
- Events
- Exhibitions

1300HOARDING IS AN OFFICIAL PARTNER WITH TITAN HOARDING

Titan is the preferred indoor hoarding system for major shopping centres including Scentre Group (Westfield) and Vicinity Centres.

INTERNAL HOARDING RANGE:

INTERNAL HOARDING

- Up to 7.2m high, free standing counterweight
- 70 x 45 MGP10 pine / ECO Aluminium pine extrusion

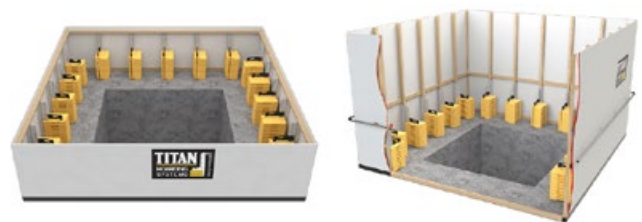

FREE STANDING DISPLAY WALL

- No limits to height or size
- Easy for a deployment and removal with relative ease
- Fully supports:
 - ✓ Large monitors
 - ✓ Product displays
 - ✓ Printing materials

WORKZONE & KIOSK

- 1.2m high, free standing counterweight
- 70 x 45 MGP10 pine / ECO Aluminium pine extrusion

BALUSTRADE REPLACEMENT

- Free standing temporary system
- From 1.2m to 3.6m high
- 70 x 45 MGP10 pine / ECO aluminum pine extrusion

DUST ENCAPSULATION

- No limits to height or size
- Lightweight, easy for a deployment and removal with relative ease

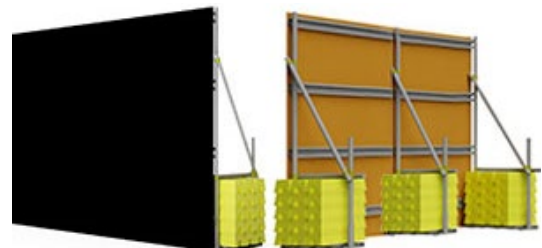

CONSTRUCTION PORTAL

- Flexible height, free standing counterweight portals
- Can be dressed with graphics, lights and finishes
- 1.2m high, free standing counterweight
- 70 x 45 MGP10 pine / ECO Aluminium pine extrusion

- Transparent panel
- Flexible height, free standing counterweight portals
- Lightweight, easy for a deployment and removal with relative ease

COUNTER WEIGHTED HOARDING

- Engineer Certified wind loading capable
- 1.8/2.4m high, free standing counterweight

SIGNAGE PRINTING & INSTALLATION

Branding has become more important than ever. Many projects now use vinyl banners on their hoarding to provide visual impact and brand awareness. We can provide you with premium quality vinyl banners that allow you to communicate your message clearly and effectively.

Hoarding is a highly popular option in urban areas, within shopping centres and perfectly suited for the events industry. With outstanding print reproduction and our high

quality vinyl finish, our banners guarantee maximum visual impact. To make things even easier, we also provide FREE graphic design consultancy and support.

Increasing safety awareness on site, is also highly important. We can also provide safety signage that demonstrates the correct protocol for your workers and visitors. From corflute signs to aluminium composite panels we are there to support your safety initiatives.

ACCESSORIES RANGE

We recognise that not every site is the same, that is why we spent time curating a specialist range of accessories to ensure your site is as safe and secure as possible, and that you can maximise the visual impact of your hoarding.

Our accessories include:

- Swinging vehicle access gates - chainmesh or ply
- Customised paint colours (low sheen acrylic)
- Sliding vehicle access gates - chainmesh or ply
- Plinth board (top & bottom)
- Pedestrian access gates - chainmesh or ply
- Safety signage
- Flashing safety lights
- Perspex viewing windows
- Razor wire
- Anti-poster mesh
- Plus many more options

If you have any specific requirements that are not part of our range, then please speak to our team. We have access to a wide range of suppliers who can provide solutions at a low cost to you.

OH&S: OUR CONTINUAL POLICY

At 1300Hoarding, the overall safety of our people, the communities and environments in which we operate will continue to be our highest priority.

1300Hoarding holds a strong reputation for proactively managing, monitoring and mitigating any risks that relate to OH&S and Environmental Impact.

Through many years of finely tuning our approach, we are immensely proud of our safety record and will work tirelessly to ensure we maintain this.

We are fully insured for:

- Work cover
- Public liability

We provide full documentation for:

- OH&S
- SWMS
- Environmental Impact

Our Installers have all necessary:

- Construction industry cards
- Working with children checks
- PPE
- Equipment Operator Licences

OUR PROMISE

Your trust in us is what makes us who we are. We are unwavering in our commitment to your requirements and have developed an approach that has your needs in mind. Our Promise to you is:

- Robust, compliant installations
- Competitive pricing
- Flexible design options

- All documentation provided for OH&S, Workcover, Public liability, plant, etc
- Experienced, fully certified install teams
- Proprietary hoarding systems engineer certified to AS1170.2.2021 and/or AS4687
- Leading support from industry professionals
