WHO WE WORK WITH

We're committed to delivering the highest standards of quality, service, and value to every customer. With a reputation for being easy to deal with our goal is simple; to provide industry-leading temporary hoarding installations at a fair price, while working closely with our clients to exceed expectations on every project.

LEADERS IN HOARDING SOLUTIONS

Backed by skilled management and construction teams, we work collaboratively with clients and stakeholders to ensure every installation is safe, compliant, and professional. Safety and compliance are at the forefront of everything we do, all of our timber hoarding complies with local & state regulations, OH&S and is tested and certified to Australian Standards.

Our In-ground and Dynabolt Hoardings are compliant to AS1170.0:2002 & AS1170.2:2021. Wind Actions.

Our Above-ground/Counterweight Hoardings are compliant to AS4687:2022 Temporary Fencing & Hoarding Parts 1 and 3.

Our commitment is simple: deliver high-quality, cost-effective hoarding with outstanding service, consistently exceeding customer expectations.

SAFETY AUDITS AND QUALITY ASSURANCE

We're leading the way in providing systemised audits with photos after every installation and removal, ensuring complete transparency and accountability. No one does this as thoroughly as we do. Additionally, we can conduct regular audits reinforcing our commitment to excellence and giving our clients confidence that every project meets the highest standards.

OUR PROMISE

Your trust in us is what drives who we are. We remain unwavering in our commitment to your requirements and have built an approach designed entirely with your needs in mind.

Our promise to you includes:

- Engineered bespoke solutions
- Robust, compliant installations
- Stock consistently maintained and available for immediate supply
- Competitive pricing
- Excellent customer service; fast, friendly, professional
- Flexible design options
- All documentation provided for OH&S, Workcover, Public liability, plant, etc
- Experienced, fully certified install teams
- Leading support from industry professionals

Our skilled and experienced Hoarding management and construction teams work collaboratively with our clients and stakeholders to provide hoarding solutions tailored to your needs.

EXTERNAL (A CLASS) HOARDING

COMMERCIAL | RESIDENTIAL | EVENTS | INFRASTRUCTURE

1300Hoarding is committed to delivering unmatched quality in construction and event site hoardings. Our Engineer-Certified Hoarding Systems are built to be safe, compliant, and aligned with all relevant Australian Standards as well as local and state regulations.

Our experienced management and construction teams provide expert guidance and advice on the best hoarding solutions to suit your site. We supply standard engineer-certified systems up to 3 metres in height, and for projects requiring greater heights or more complex configurations, we work closely with leading structural engineers to produce site-specific designs and regulatory sign-offs within critical timeframes.

1300Hoarding's OH&S and Environmental systems are fully compliant and proven successful on major infrastructure and commercial construction projects. We also offer a comprehensive range of accessories to enhance safety, functionality, and visual presentation across construction and event sites.

All of our timber hoarding complies with local & state regulations, OH&S and is tested and certified to Australian Standards.

Our In-ground and Dynabolt Hoardings are compliant to AS1170.0:2002 & AS1170.2:2021. Wind Actions. Our Above-ground/Counterweight Hoardings are compliant to AS4687:2022 Temporary Fencing & Hoarding Parts 1 and 3.

COUNTERWEIGHTED ABOVE GROUND HOARDING

Suitable for all ground types (no ground damage).

IN-GROUND HOARDING

Concreted in-ground, suitable for soil or grass surfaces.

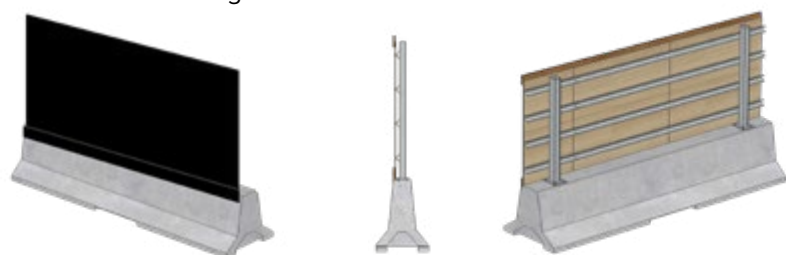

DYNA BOLTED HOARDING

Suitable for concrete slab surfaces/capping beams.

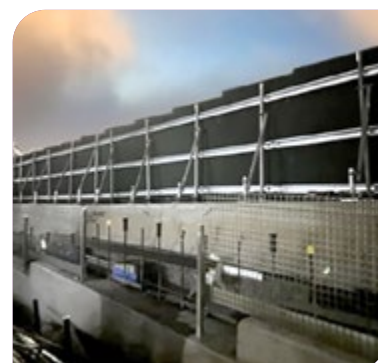

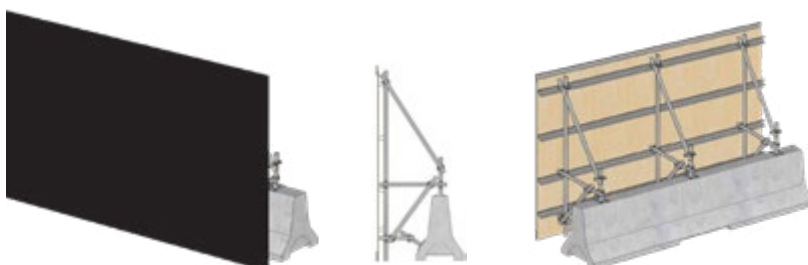

JERSEY KERB HOARDING

Protection of the site from vehicle impact without taking up additional space for the hoarding.

FULL HEIGHT JERSEY KERB HOARDING

Protection of the site from vehicle impact without taking up additional space for the hoarding, 2.4 metre full height ply front.

INTERNAL HOARDING

RETAIL | COMMERCIAL | OFFICES

1300Hoarding is a proud supplier of the Engineer Certified Titan Hoarding System, the market leader for indoor hoarding applications where public access must be safely restricted during construction or event activities.

Ideal for retail shopping centres, commercial offices, hospitals and event spaces. The Titan system can be built up to 7.2 metres high, completely free standing, eliminating the damage to floors and bulkheads from traditional indoor hoarding methods of fixing into existing structures.

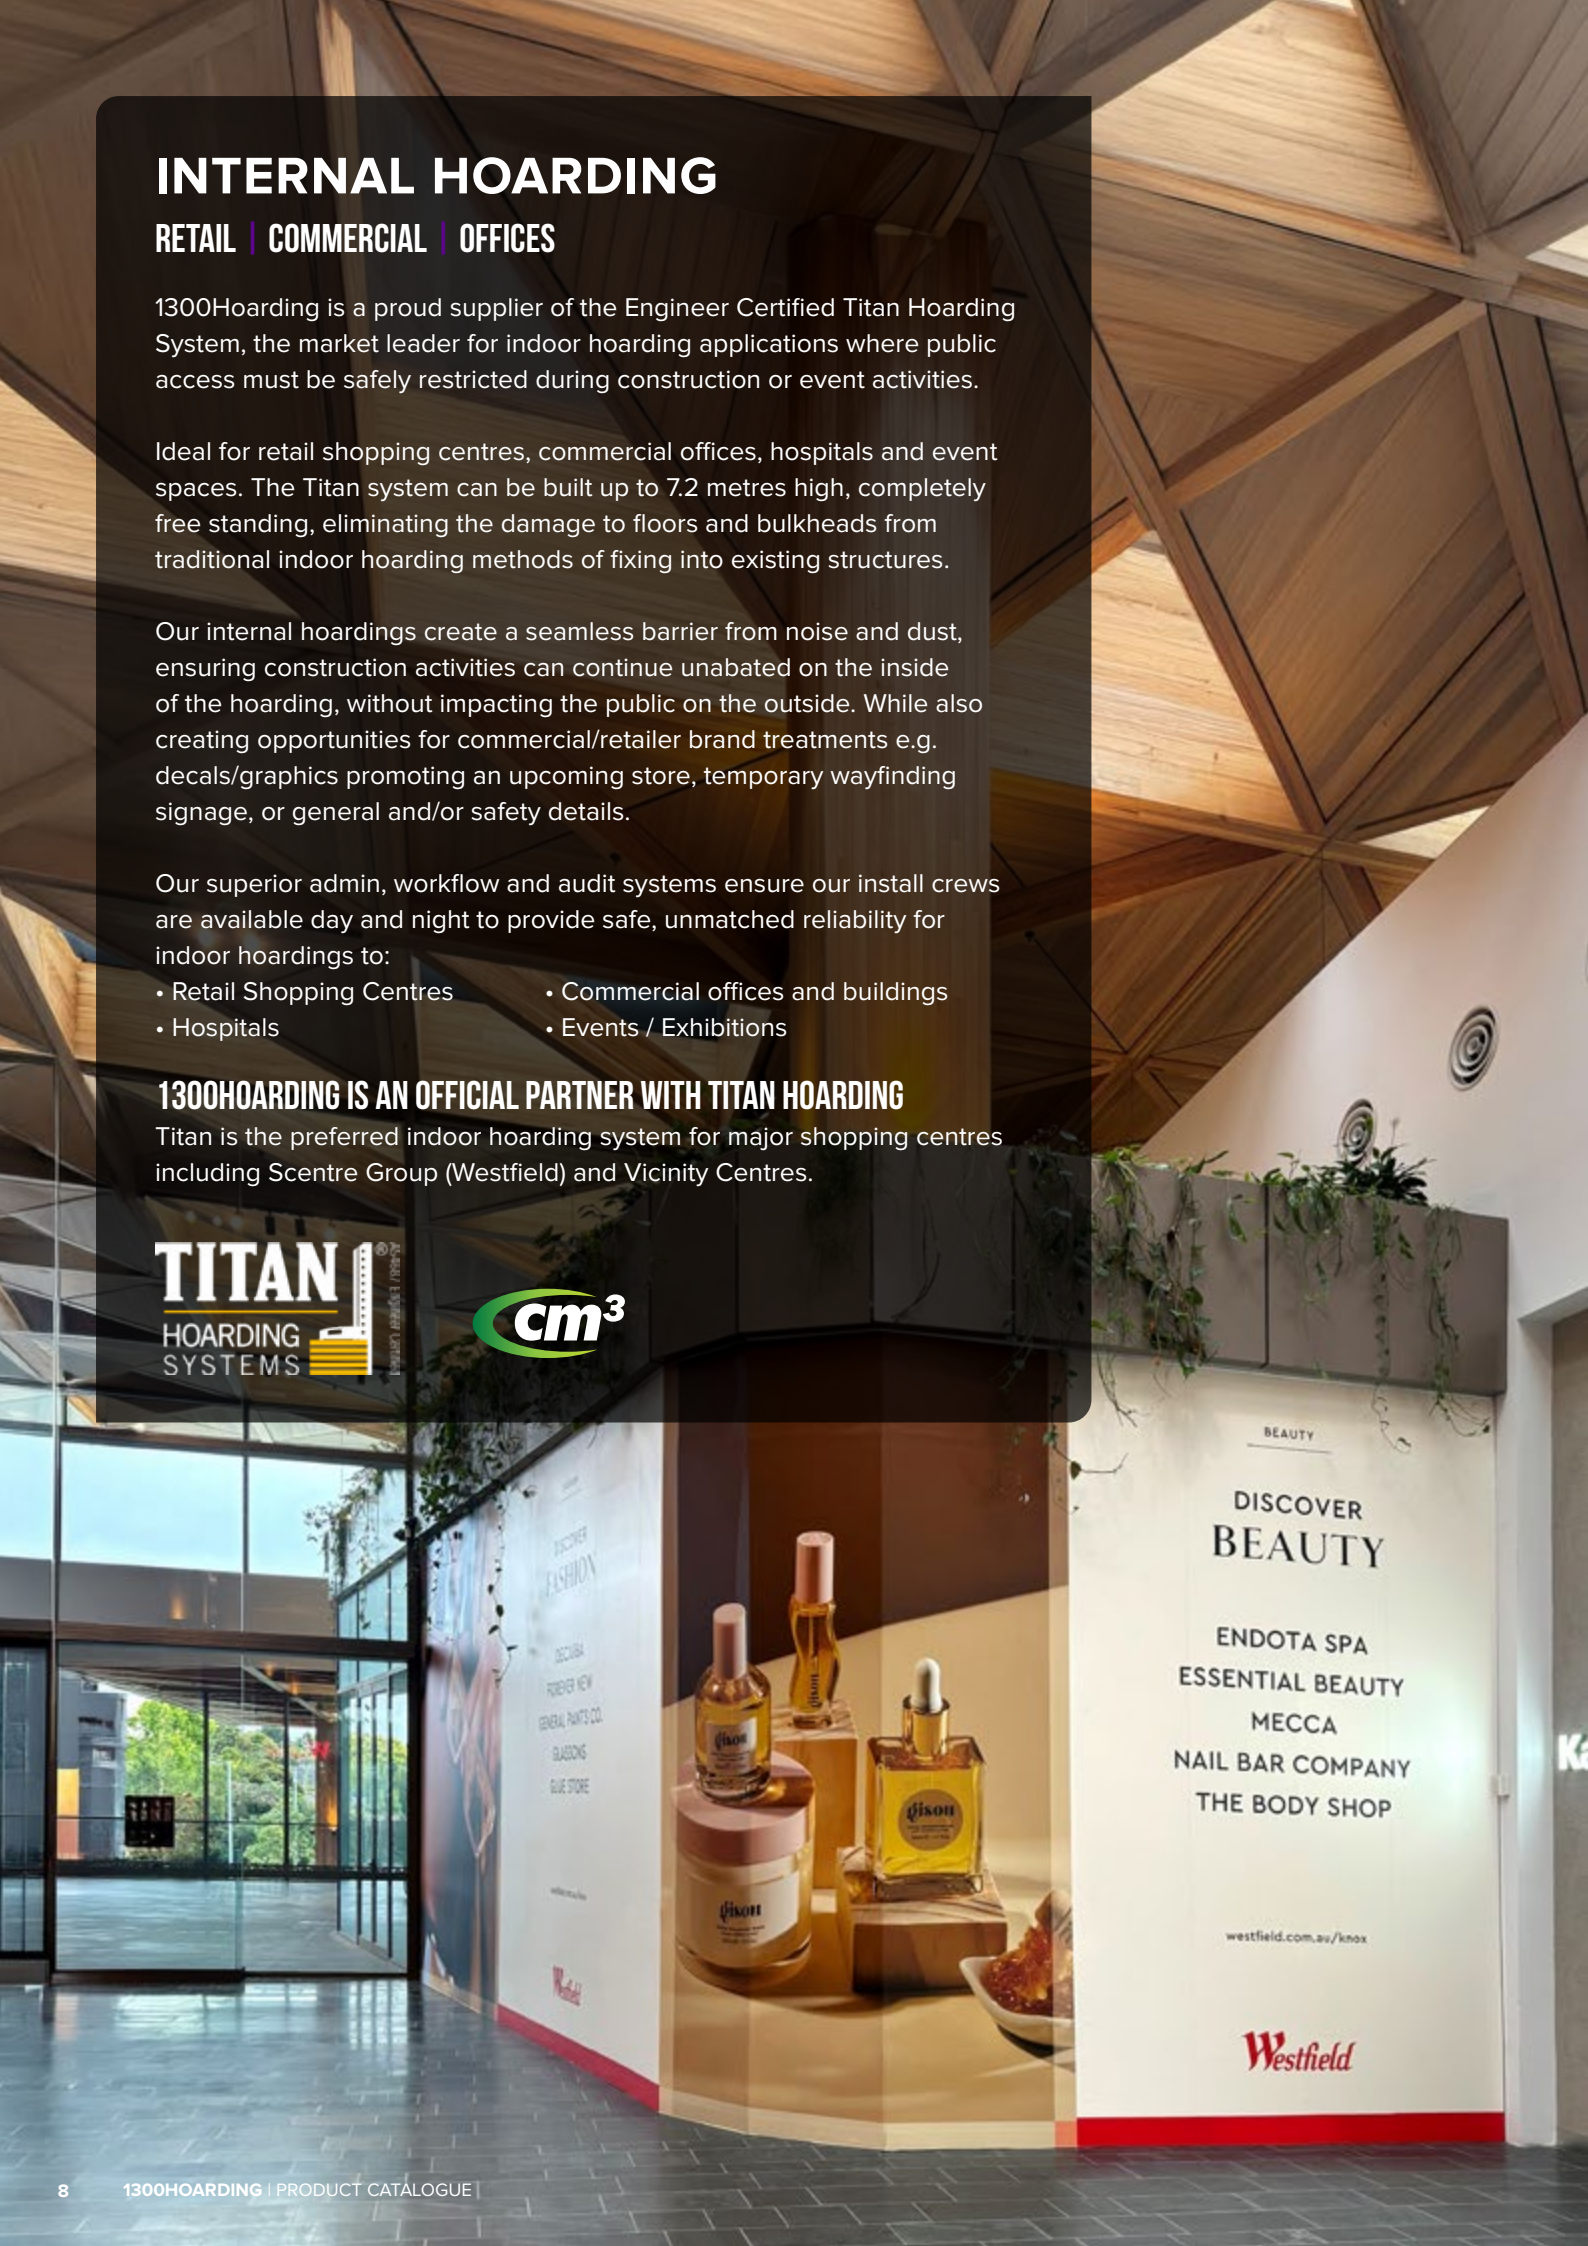

Our internal hoardings create a seamless barrier from noise and dust, ensuring construction activities can continue unabated on the inside of the hoarding, without impacting the public on the outside. While also creating opportunities for commercial/retailer brand treatments e.g. decals/graphics promoting an upcoming store, temporary wayfinding signage, or general and/or safety details.

Our superior admin, workflow and audit systems ensure our install crews are available day and night to provide safe, unmatched reliability for indoor hoardings to:

- Retail Shopping Centres
- Commercial offices and buildings
- Hospitals
- Events / Exhibitions

1300HOARDING IS AN OFFICIAL PARTNER WITH TITAN HOARDING

Titan is the preferred indoor hoarding system for major shopping centres including Scentre Group (Westfield) and Vicinity Centres.

SHOP FRONT HOARDING

- Up to 7.2m high, free standing counterweight

WORKZONE & KIOSK

- 1.2m high, free standing counterweight

WIND RATED HOARDING

- Engineer Certified wind loading capable

✓ Large monitors
✓ Product displays
✓ Printing materials

FREE STANDING DISPLAY WALL

- Blank canvas for advertising/creative display
- Easy for a deployment and removal with relative ease

CUSTOM PRINTED SIGNAGE

READY TO TURN YOUR HOARDING INTO A POWERFUL BRANDING OPPORTUNITY? LET US HELP YOU STAND OUT!

Whether it's a construction site or a major event we have the perfect print solution for your hoarding. Made from tough, durable materials and printed with UV-stabilised inks, our signage delivers sharp, vibrant, and long-lasting results.

We also offer fast, reliable nationwide installation to ensure your signage is fitted safely and professionally wherever you are. For custom vinyl banners and decals, our sister brand Signage HQ has you covered. From bold branding to eye-catching visuals, Signage HQ specialises in high-impact designs tailored specifically for hoarding. Our banners can be created in any size or length, complete with an in-house graphic design team ready to bring your creative vision to life.

Have questions? We're here to help.

VINYL BANNERS

Our vinyl banners are a powerful, versatile signage solution designed for bold visuals and long-lasting performance. Whether for events, building sites, or indoor displays, they deliver sharp, vibrant prints that demand attention.

Why choose our vinyl banners?

- High-impact prints: Non-porous vinyl ensures crisp, vibrant images.
- UV & fade resistant: Your graphics stay bright for years - far outlasting paper.
- Tough & durable: Weather-resistant and built to last up to 5 years.
- Fully customisable: Made to any size or length to suit your needs.

Unlike mesh or shade cloth, our vinyl banners give you full-colour clarity with no compromise.

VINYL DECALS

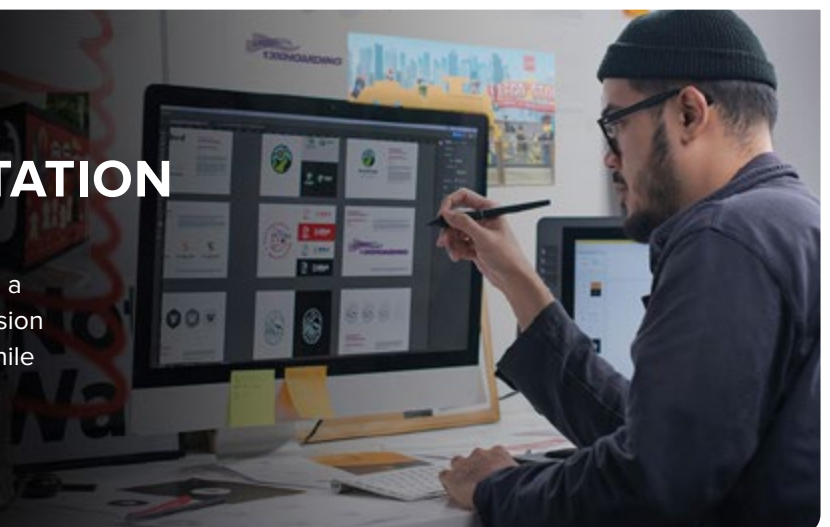

Turn plain timber hoarding into a powerful advertising space with custom printed decals. Made from tough, weather-resistant vinyl, these decals are fully customisable with your branding, promotional messages, or eye-catching artwork. Professionally installed for a smooth and long-lasting finish, they instantly transform hoarding sites into vibrant displays.

The result? Greater visibility, a more polished site appearance, and stronger engagement with the public throughout your project.

Share your project plans, drawings, photos, or any details you have available.

SITE CONSULTATION & QUOTE

We'll provide an initial quote based on the information or plans you send through. Once reviewed, our team may visit your site to confirm details, measurements, and conditions before finalising your pricing. Ensuring an accurate and transparent quote every time.

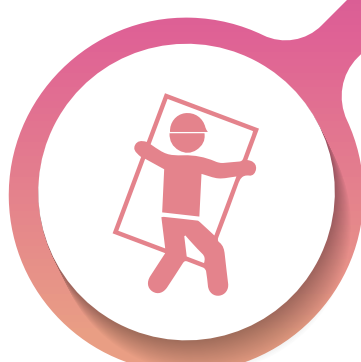

ENGINEERING CERTIFICATION

All our hoarding systems are engineered to meet relevant Australian Standards.

INSTALLATION

Our experienced team will install your selected hoarding system safely and efficiently.

REMOVAL

For hire projects, we include one dismantle and removal in our rate.

OH&S: OUR CONTINUAL POLICY

At 1300Hoarding, the safety of our people, the communities we work within, and the environments we operate in will always remain our highest priority.

We're recognised for proactively managing, monitoring and mitigating any risks that relate to OH&S and Environmental Impact.

Through many years of finely tuning our approach, we're immensely proud of our safety record and work tirelessly to ensure we maintain this.
